

# New Cooler/Livewell Seating

## Another Innovation from Moeller

### First-of-its-Kind Molded Plastic Technology Makes a Colorful Splash!

Fighting Yellow: Bahama Blue: Raging Red: Arctic White: Speckle White: Moeller sits you in style not to mention performance. These new coolers give you the high-gloss fiberglass finish you demand without fiberglass chipping and cracking using our exclusive molded plastic innovation. No one else has it. But you can – with Moeller.

- + Features flat-profile aluminum arms that swing fore and aft; won't latch onto lines.
- + Eliminates VOCs with environmentally friendly molded plastic technology.
- + Non-corrosive stainless steel hardware.
- + Holds ice for up to 5 days in advanced molded polyethylene, double-wall insulation.
- + New injection-molded seat bottom with rubber seal; molded foam back and bottom seat.
- + Choose from a new variety of styles and durable colors.
- + Patented deck mounting system.
